

Paydia Reader

One Reader, Multiple Capabilities

Our Readers allow your customers to experience your entire venue cashless, while earning points, exchanging or redeeming credits and tracking rewards.

You can custom manage your staff and guests' experiences through Reader usage in all aspects of your venue.

Hardware

Paydia Readers are manufactured and assembled in the USA to **withstand demanding environments** and reduce RMA exposure.

Each of our readers are equipped with configurable lighting features that wrap around all sides of the Reader. The **dynamic LED lights** heighten guests' experience and can be set to a solid, flashing, or random sequence. Program lights for game modes, maintenance alerts, winner announcements or any scenario.

The **high definition touchscreen** offers your guest clear instructions and customized information. Utilize the screens to play videos, promote events and specials, or encourage additional guest purchases.

Dual speakers enable sound cues and engage user excitement and experience.

The Readers are available with a **water-resistant shield** that will protect from sticky fingers and spills.

Our Readers come with both WIFI for **easy integration** and hardwiring capability.

The Paydia Readers
accompanied with
our Total Business
Solution allows you
to control **ALL**
aspects of business
operations

Paydia Readers utilize a secure dual core ARM microprocessors permitting **fast processing time** to integrate seamlessly into your system for effortless customer interaction.

Work with our programmer to **customize screen capabilities** such as on-screen messages to capture your guests' attention and encourage spontaneous purchases.

CORE's Reader software can elevate your venue in a **combination of industries** simultaneously, including; gaming, food, entertainment, retail and on-line sales. This allows your guests to earn points in one industry in your venue and redeem them in another industry within your venue.

Reduce employee time inefficiencies like counting coins or tickets. Incentivize your customers with **point tracking** directly on the credit media of choice.

Use the Readers as a stand-alone product or integrate them with a Paydia system to include operation analytics collected by the Readers' ecosystem that will give you the opportunity to make informed and data-based profitable decisions.

THE INDUSTRY'S LEADER IN CASHLESS PAYMENTS
