

# MOBILE POS SYSTEM FOR YOUR SITE

Food-and-beverage is a core component of on-site hospitality and guests are looking for the complete service experience when they're at your site—whether that is a drink in the lounge or food service in the cabana section, or even picking up a snack from the to-go counter.

There's that expectation that food-and-beverage is part of the overall experience.

Moving to mobile POS allows your site to extend its F&B offering.

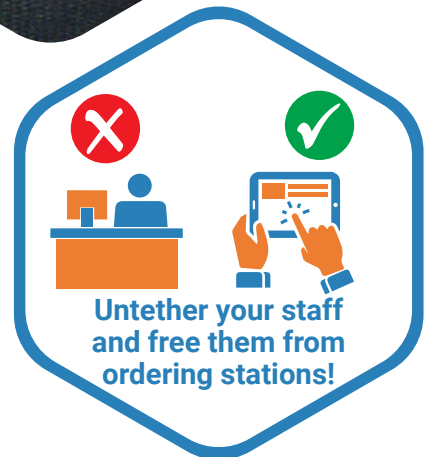

Mobile POS is essential in today's marketplace because it addresses two of the most pressing challenges facing your park:

Escalating pressure to improve efficiency

Unprecedented demands from consumers who expect faster, better, individualized and hassle-free service

With our new mobile POS technology, they can finally cater to guests anytime, anywhere, to expedite service and increase sales.

Sell anytime and anywhere

Enhanced line-busting by moving guests through the queue more quickly

Drive increased revenue by extending service to food courts, patios or poolside
